A photograph of a bathroom floor with a white room liner and a chrome faucet. The room liner is a white, textured material that is being laid out on a light-colored, marbled tile floor. The faucet is a classic chrome design with a cross-handle and a spout. The text 'easy fit', 'waterproof', 'durable', and 'hygienic' is overlaid on the right side of the image. The word 'roomliner' is written in a large, dark teal font across the bottom of the image.

Roomliner Wall and Shower panels are an ideal alternative to tiles. Waterproof, Easy to fit, Durable and Hygienic, they are suitable for any room in the home, office or commercial building.

- Suitable for use in rooms that reach up to 60°C
- Affix to a clean flat wall, ceiling or over existing tiles with a solvent free/moisture cure adhesive or neutral cure silicone
- Fix to damp or damaged walls by fitting 38mm x 19mm battens horizontally at 400mm centres and a breathable membrane is recommended
- Can be fitted behind radiators and hot water pipes
- Can be installed behind a gas or electric hob if protected by a piece of heat resistant glass
