

Gelcast Washbasins

Manufactured for a leading UK bathroom furniture company.

At the forefront of contemporary design, Gelcast washbasins are a real innovation in terms of styling, finish and performance.

The unique production process results in a flawless white gloss finish, with neat and sharply defined edges.

Gelcast basins are made from tough, resilient ISO NPG gel coat, combined with high performance resins & mineral fillers, which make them warm to the touch, extremely durable and easy to clean.
